

Please make sure you click create a account for your child this year. Once you click create an account you will use the previous information to update your account. You must use your child's given name when creating the account. Nicknames will not work.

Once the new information is created, it will follow the student for the rest of their time in District Five. Students will be given instructions to bring home tomorrow, August 28.

Should you need help, please call our Guidance Department
